QUALITY POLICY

Rev. 01 / October 2025

Quality Commitment

At GG Group, we are committed to deliver high quality across all aspects of our work.

As a manufacturer of cables and harness solutions for high-volume, precision applications, we align our quality management approach with our company's MISSION, VISION & Strategic goals. This policy is built on a pragmatic combination of established quality principles and forward-thinking practices – engineered to meet the demands of modern manufacturing with confidence and consistency. Our Quality Commitments are:

- We meet industry, regulatory and customer-specific requirements
- We align measurable quality objectives with our strategic direction and operational goals
- We foster a culture of **Right First-Time Quality Mindset** and **Risk-Based Thinking** (Quality Principles)
- We address ongoing optimization through **Continuous Improvement** and apply **Lessons Learned** (Quality Principles)

01 | Right First-Time Quality Mindset

Quality Principles

Every GG employee takes ownership of **doing work right the first time.** We foster a culture of engagement, where people are taking responsibility for quality and processes are executed correctly from the beginning. We expect the same engagement from our stakeholders.

02 | Risk-Based Thinking

Quality Principles

Risks and opportunities are systematically assessed internally and along our value chain to act preventively and enhance resilience.

03 | Continuous Improvement

Quality Principle

We respect that physical and digital processes can always be improved. A culture where **every employee contributes to improvements in a TEAM approach** is fostered.

04 | Lessons Learned

Quality Principle

Important insights gained from past experiences valuable assets to improve future performance. **Lessons learned are shared within all necessary function in the whole group.**

Quality Execution

People and Process Excellence

- All employees are trained, competent, and responsible for quality.
- We encourage proactive contributions to quality improvement at all levels, leveraging digitalization to unlock further potentials.
- Policy documentation is standardized, controlled, and regularly reviewed through audits, stakeholder feedback, and management oversight.

Openness, Transparency and Engagement

- This policy is shared across the group and stakeholders to build trust and alignment.
- Quality performance is a TEAM effort, measured through KPIs, and guiding our continuous improvement.
- Customer satisfaction is regularly monitored and used to guide improvement efforts
- The board reviews and endorses this policy regularly
