

Gebauer & Griller

Travelling Cables & Cable Harnesses for Elevators and Escalators

Gebaue & Griller

Since 1940 the Austrian company Gebauer & Griller has stood for successful and innovative product development in the fields of cables, wires and cable harnesses.

We started supplying control cables to the Elevator and Escalator industry in the 1970s and have continuously expanded since then. In 1990 the harness production was added to our product range. Today we supply to hundreds of elevator customers who appreciate our competitiveness, reliability and innovative solutions. With approximately 4,100 employees and a total turnover of about 436 million Euros (approx. 3,313 crore INR), Gebauer & Griller today is considered as one of the leading players in the global cable and wire industry.

About Gebauer & Griller India

GG Cables and Wires India was founded in 2010. The 40,000 ft² plant was established in Bangalore, Karnataka for the supply of flat travelling cables and cable harnesses to the Indian elevator and escalator market.

The current manpower strength of the plant is about 240 employees. Based on training in the European plants and continuous support from the parent company the GG India team has introduced systems and processes which are designed to deliver superior products and solutions to Indian customers.

Our Vision & Mission

Our Vision: GG leads through passion in energy & data transmission.

Our Mission: GG is a committed partner for our customers. GG connects people to create & deliver innovative wire solutions.

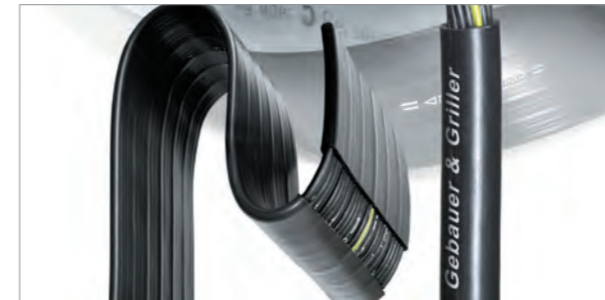

Quality

Our manufacturing technologies are state-of-the-art and guarantee the best possible quality. Quality management systems which – at least – fulfill the requirements of the ISO 9001 standards are a mandatory obligation to safeguard the quality of our products and processes.

Preventive measures and control plans are defined in the development stage itself. In process testing is performed by our production and quality team and 100% of our harnesses undergo a final quality inspection. Our plants are equipped with most modern in-house laboratories and have all the required testing facilities to guarantee full compliance with international standards and customer specific requirements.

We continuously evaluate and improve our processes. This enables us to identify any root causes quickly and take corrective action to eliminate failures in the future.

Travelling Cables

HO5VVH6-F from 6G0.75 to 24G0.75

LEAFL-(Y+V2YCVF)Y-JZ 20G0.75F+2x2x0.5F

Short Description	GG Part No.	Cores Insulation	Sheath Insulation	Shielding of Data Elements
6G0.75	102412	PVC	PVC	-
12G0.75	37942	PVC	PVC	-
24G0.75	16890	PVC	PVC	-
12G0.5	17362	PVC	PVC	-
20G0.75+2x2x0.5 steel Rope	46438	PVC/PE	PVC	Copper Braid
20G0.75+2x2x0.5	15557	PVC/PE	PVC	Copper Braid
10G0.75+2x2x0.5	118404	PVC/PE	PVC	Insulation Foil

G....with GN/YE core, x....without GN/YE core

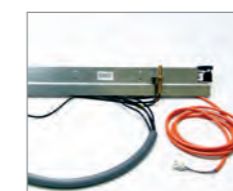

Please get in touch with our Sales team for other requirements such as:

- Travelling Cables with strain bearing members for higher suspension lengths (up to 150 m)
- Halogen free flat travelling cables
- Further types with data elements, different cross sections or core numbers

Cable Harnesses

Car Operating Panel Harness

PRS (Position Reference System) Harness

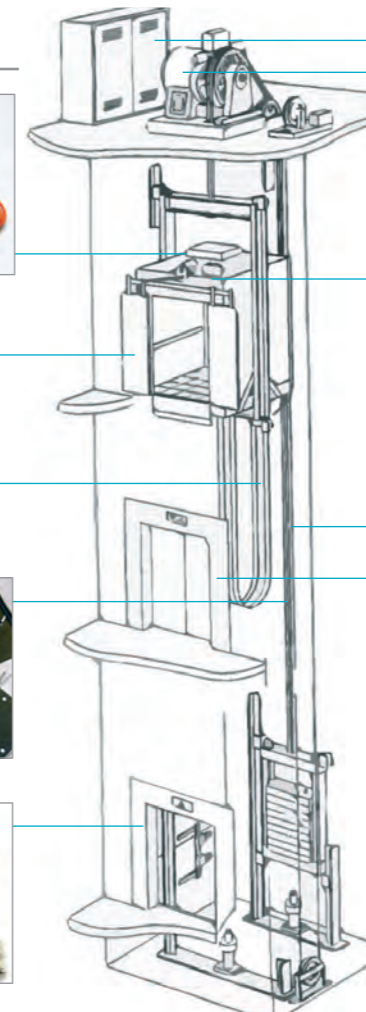

Travelling Cable Harness

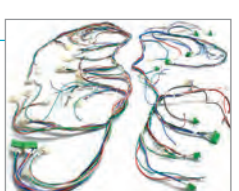

LIH (Light in Hoistway)

Landing Door Harness

Motor Harness

Controller Harness

Car Top Harness

Push Button Harness

Shaft Harness
